

GUIDE

CONNECT TELLDUS LIVE! TO IFTTT

IFTTT (If This Then That) is a service where you can connect your TellDus Live! account to a lot of other things. You can use the location in your phone to automatically turn off the lights when you leave your home. Or make sure you are greeted with nice relaxing music from Sonos and perfect mood lighting when you get back. Or even tell your robot vacuum cleaner to stop cleaning if the doorbell rings. The possibilities are endless!

LET'S GET STARTED!

YOU WILL NEED

-  **TELLDUS LIVE!**
-  **TELLDUS LIVE! PREMIUM**
-  **TELLSTICK NET/ZNET**

1 ifttt.com

[ifttt.com](#)

Sign up **Sign in**

! Log in or create a new IFTTT account. This account is then used to connect to your TellDus Live! account.

2 ifttt.com/telldus

[ifttt.com/telldus](#)

Connect

3 Telldus Live!

Log in/Accept IFTTT Connection

Do you accept?

Yes **No**

TIP!

If you want to use location services and other mobile-based services from IFTTT, you can install the IFTTT app on your iPhone or Android device. If you don't find an applet for exactly the thing you want to do, you can also create your own.

UPGRADE TO **TELLDUS LIVE! PREMIUM**

To use IFTTT and take full advantage of the features in TellDus Live! you need to upgrade your account to **Premium Access**. This allows you to send SMS messages and emails, access extended sensor history and use many other Premium features and benefits. Read more and upgrade at telld.us/premium
