TELLDUS

CONTROL A **Z-WAVE DEVICE** WITH **433MHZ REMOTE CONTROL**

This guide shows a smart and easy way to control your Z-Wave devices with a regular 433 MHz remote control to avoid having to pick up your phone all the time. The guide will assume that you have your Z-Wave device already included.

LET'S GET STARTED!

YOU WILL NEED

- TELLSTICK ZNET LITE V2
- TELLDUS 433MHZ REMOTE CONTROL
- TELLDUS LIVE!
- Z-WAVE OUTLET

---

1   live.telldus.com

live.telldus.com ⟩ Control Devices

---

2   live.telldus.com

Add new device wizard

Choose the location for your new device:

Home	Office
TellStick ZNet Lite V2	TellStick ZNet Lite V2

! **Note!** This step will only be shown if you have more than one Location installed on the same account.

---

3   live.telldus.com

Add new device wizard

Select your device type:

- ZWAVE
- ZWAVE 🔒 Secure
- 433,92 MHz receivers
- Group

4

Add new device wizard

Select your device brand:

TELLDUS

5

Add new device wizard

Select your device model:

---

6   live.telldus.com

Add new device wizard

Enter name:

Name: Remote Control - Button 1

Next

---

www.telldus.se

7

Press the ON button (1) on the remote control until the progress bar reaches 100%.
