

GUIDE

SET THE TIME ZONE AND POSITION

To ensure that the time and sunrise/sunset features in events are based on the correct time zone and geographical position you can manage these settings for your location.

LET'S GET STARTED!

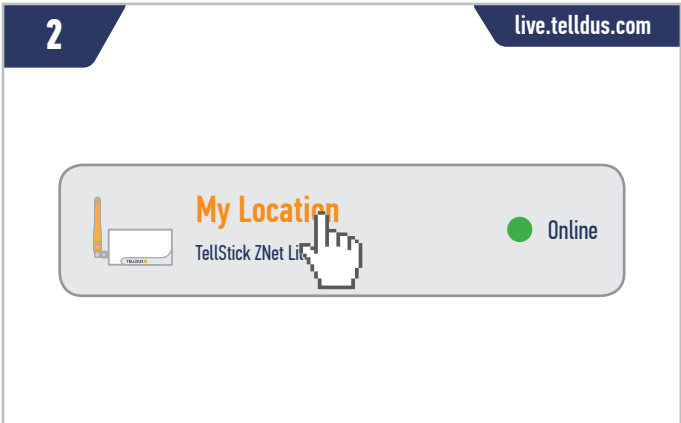

YOU WILL NEED

-  **TELLDUS LIVE!**
-  **TELLSTICK NET/ZNET**

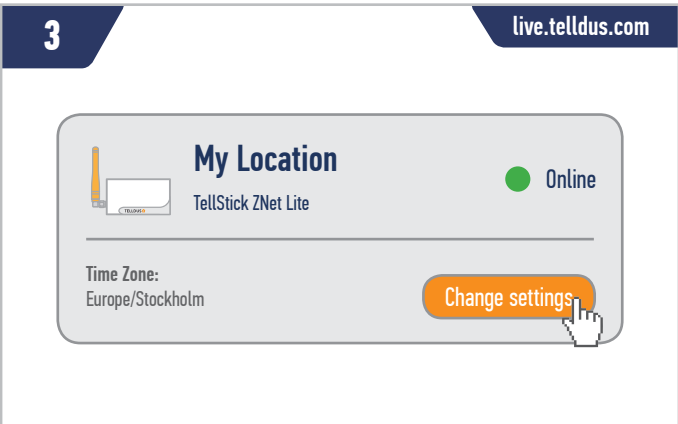

1 live.telldus.com

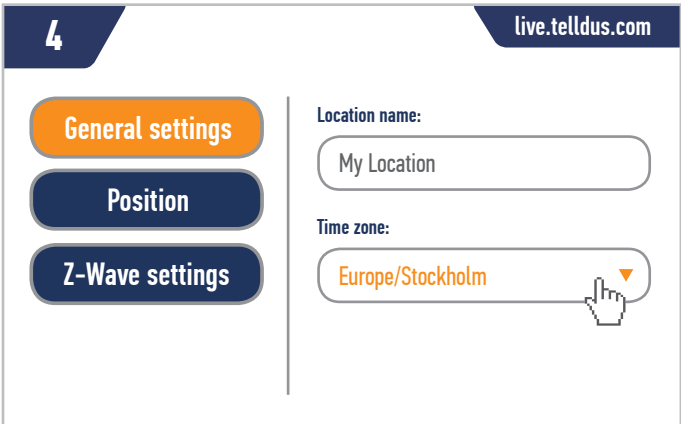

2 live.telldus.com

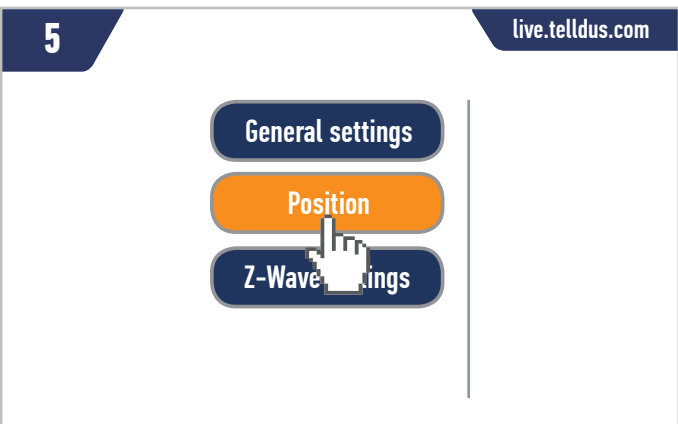

3 live.telldus.com

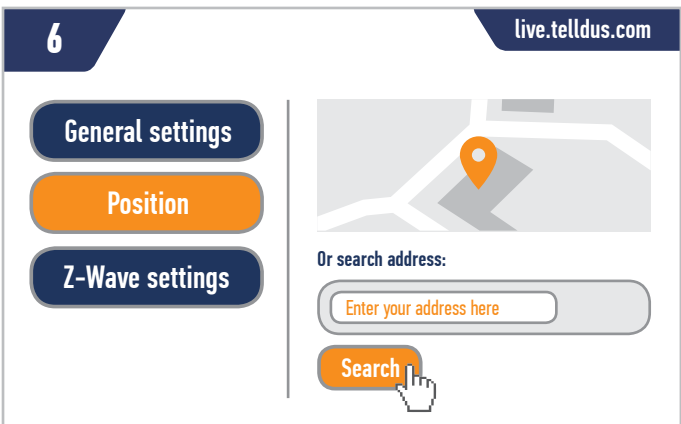

4 live.telldus.com

5 live.telldus.com

6 live.telldus.com

Save

Tip! Instead of entering your address you can enter latitude and longitude. Time zone is by default autodetected but setting a specific time zone is more reliable.
