TELLDUS

WAKE-UP LIGHT

Waking up by the sun rising is a smooth and comfortable way of waking up in the morning. There are a lot of expensive lamps available to simulate this. Instead you can use your TellStick and Telldus Live! to achieve the same thing.
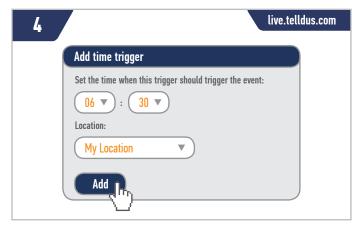

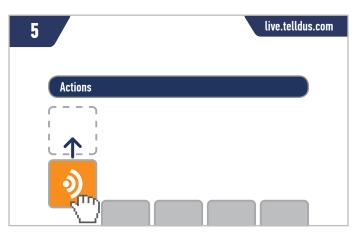

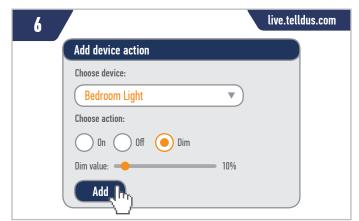

LET'S GET STARTED!

YOU WILL NEED

- A DIMMABLE RECEIVER
- TELLDUS LIVE! PRO

---

1   live.telldus.com

live.telldus.com ⟩ Trigger **Events**

➕

---

2   live.telldus.com

Create new event

Event name: Soft Wake-Up Light

Create

---

3   live.telldus.com

Triggers

🕐

5   live.telldus.com

Actions

---

6   live.telldus.com

Add device action

Choose device:

Bedroom Light ▼

Choose action:

◯ On   ◯ Off   ⦿ Dim

Dim value: 10%

Add

TELLDUS

7

Actions

AND

8

Add device action

Choose device:

Bedroom Light ▼

Choose action:

○ On   ○ Off   ● Dim

Dim value: ————●———— 25%

Advanced settings »

9

○ On   ○ Off   ● Dim

Dim value: ——●——— 25%

Advanced settings »

Repeats: 1

Delay: 300 seconds

Delay type: Continue ▼

Add

10

↻ **Step 7-9**

Repeat step 7-9 and choose the same device and the values below:

Dim value: ——●—— 40%	→	Delay:	600 seconds
Dim value: ——●—— 55%	→	Delay:	900 seconds
Dim value: ——●—— 70%	→	Delay:	1200 seconds
Dim value: ———●— 85%	→	Delay:	1500 seconds
Dim value: ————● 100%	→	Delay:	1800 seconds

THE RESULT

| 06:30	06:35	06:40	06:45	06:50	06:55	07:00

! Note! If you want a different wake up time than the one in this example, you only have to change the time in the trigger, and all the actions will be based of that time. You can change the delay times as well for a longer or shorter dim sequence.

★ GET **TELLDUS LIVE! PRO**

To take full advantage of the features in Telldus Live! you need to upgrade your account to Telldus Live! Pro.
This allows you to send SMS messages, emails and use many other Pro features.
